

Titan Vic Excavator Rippers

Titan Tough Features

Efficient

- Heavy duty ripper tyne designed to easily break up rocky soils and materials

Quality

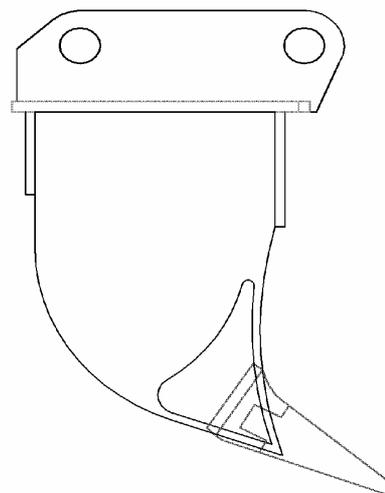

- Quality wear resistant grade 360 Bisalloy tyne
- Quality high tensile grade 350 steel body
- Reinforced and gusseted in all critical stress areas
- Ripper point set designed to:
 - improve material flow - arrowhead shroud and stay sharp point designs improve material flow and reduce friction to help keep the shank in the ground during tough ripping conditions
 - provide extra wear metal - ramp-style points and slim-line shrouds add wear metal to combat abrasion due to the "boiling" action of material at the curved portion of the lower shank
 - stabilise internal and external points - conical point bearing surface with large stabilizing flats, plus recessed bearing surfaces on the shank for point ear provide superior strength and greatly reduced "flutter" action during ripping
- Weld in pins standard
- 12 month parts and labour warranty

Models

- A wide range with sizes to suit all machine makes & models from 1 to 50 tonnes
- Custom design for size and capability available
- Optional extras:
 - Bosses and pins to suit quick couplers
- Colour matching available

Service & Spares

- All service items are readily available
